The Alumni Tool is a great way to connect with fellow Spartans for an informational interview and networking. To get started, navigate to the Michigan State University LinkedIn page and select “Alumni”. 

Read on for suggestions on how to utilize the tool.

1. **Trying to choose a major?**

The Alumni Tool can be used as a resource to identify individuals from different degree programs at MSU. Filter by "What they studied" or "What they are skilled at" to find alumni to network with or reach out for an informational interview. Talking to alumni about how they have used their degree and the types of opportunities it provided can help determine the right path for you!

2. **Interested in a particular geographic area?**

Are you interested in learning more about opportunities in a specific city or state? Filter by "Where they live" to find out which companies in an area have hired Spartans and reach out to connect with them to learn more!

3. **Want to learn about a company?**

Use the Alumni Tool and filter by “Where they work” to find fellow Spartans at a company of interest. Reach out to them and find out more about the company, their position, and the skills most helpful to a career there.
